

Insuring General Commodities

Coverage for general commodity (cargo) shipments is provided on an individual basis.

Examples of when to use this option to request coverage:

1. Office Moves
2. Selected High Value Items Shipments
3. Machinery
4. Handicrafts
5. Art Exhibits

Complete the following Commodity Information Sheet, filling in all the information that you have available.

An itemized valued listing of the items in the shipment is especially helpful in obtaining a rate and deductible.

Fax the completed information sheet (and value list, if applicable) to our office. We can normally respond with a quotation within 24 hours of receiving your information sheet.

If you have a customer who continually ships the same cargo to and from the same location, a specific rate may be established for that customer.

You can also complete the General Commodities form on our website at www.tginternational.com.
